TO THE READER.

With a few exceptions, all of the genealogies and historical works mentioned in this book can be purchased from the publishers, Joel Munsell's Sons, 82 State Street, Albany, N. Y., who have special facilities for supplying such as are not in print. Enclose stamp for their large catalogue of genealogical works.

P R E F A C E .

TO THE THIRD EDITION.

This work has been prepared with a view to facilitate the study of family history, by furnishing an Index to the genealogies contained in the large number of county and town histories, collections of public and privately printed genealogies, centennial anniversary celebrations, biographies, and other works containing the desired information.

But few persons have an adequate knowledge of the amount of genealogical material to be found in such volumes, from the fact, that anything like a full collection of works in those departments, can only be found in the larger cities, and in the hands of a few private parties ; and without consulting them, it is often an impossibility to prepare a family history, or of learning anything very definite of any particular family. With the assistance furnished by this volume, no difficulty will be experienced in collecting needed information, by any one interested in such investigations. It also affords instruction to the general reader, who may not know whether the history of his native county, town, or village has ever been written and published ; but its most desirable feature, is the knowledge to be gained by all persons, whether residing in the country or elsewhere, who, by examining its pages, can inform themselves whether the genealogy, or pedigree of any family, or any portion thereof, in which they may feel an interest, has been printed in any volume, and if so, that they may have the benefit of such information.

More than twenty thousand names are here alphabetically arranged. Several hundred volumes of historical and biographical publications have been minutely examined in detail, and not depending on the indexes appended to such volumes, which are more or less defective, and incomplete. A number of works not accessible to the compiler, have been examined by parties interested in perfecting the work. The more important names in Dr. Savage's *Genealogical Dictionary*, and Austin's *Rhode Island Genealogical Dictionary*, have been noticed, as well as the genealogies found in

PREFACE.

the thirty-nine published volumes of the *New England Historical and Genealogical Register*, and the *New York Genealogical and Biographical Record*.

This is the only work of the kind published in this country. It has been the aim of the compiler to make it as thorough and complete as possible, though undoubtedly there are some works, that have been inadvertently omitted. With the hope that it will supply a need which it is believed has long existed, and be of utility to the genealogical student, the volume is commended to the public.

The present edition, will be found to contain about 6,500 more references than the second edition of 1878, the whole number being about twenty thousand.

D. S. DURRIE.
